

Non-Louvered Vertical Pedestals (NLVP)

Non-louvered pedestals for housing passive (non-heat generating) CATV/Broadband components

Charles Industries' Non-Louvered Vertical Plastic Pedestals provide mounting facilities and security for taps, splitters and line extenders. Each pedestal comes equipped with your choice of either a galvanized or powder-coated mounting stake, as well as one of many optional bracketries to provide you with greater installation flexibility. Each mounting stake is equipped with slotted holes and offers easy installation of your hardware and equipment. During installation, simply bury the pedestal base to the desired depth and backfill. The mounting stake and pedestal top-slide channel add to the security and craft friendliness of pedestal assembly operation. A variety of locking options are available to address your specific security needs.

NLVP Pedestals have a rectangular design with rounded corners. These pedestals are molded from a polyethylene specifically designed to resist impact, ultraviolet and environmental degradation.

Product Features

- Secure and cold weather, high-impact resistant
- Multiple lock, bracketry and color options to satisfy all hardware needs
- Craft-friendly cover slides easily into locking position
- All hardware and bracketry options are constructed of aluminum and stainless steel
- 360° access and rectangular shape provide increased workable area

Models & Sizes

Model	Internal Dimensions (in)		External Dimensions (in)	
	Width	Depth	Cover Height	Overall Height
101	8	7	15	22
102	9	8	19	26
103	12	10	21	27
104	12	11	28	36
107	16	14	31	43

Lock Options

Charles offers a variety of lock options including the popular self-locking dome system. This lock system consists of a spring-loaded lock (hook) installed in the housing top that automatically engages a base catch installed in the housing base. No tools are required for lock activation. Simply align the housing top over its base and let go. An audible metallic click signifies that the pedestal is properly locked. The lock (hook) is unlocked by a 1/4 turn rotation of the tamperproof bolt. Available patterns shown below.

Sems Bolt

801

SCCP

Locking Hasp

- SS07** = Sems 7/16" bolt lock with self-locking dome system
S801 = Pattern 801 lock with self-locking dome system
SCCP = Pattern P-key lock with self-locking dome system
H011 = Locking hasp 11 mm hole

Available Keys (order separately):
C216-01 Key for Sems Bolt Lock
KEY-S801 Key for S801 Lock
KEY-SCCP Key for SCCP Lock

Color Options

Charles CATV Pedestals and Housings are available in UV-resistant colors that will not fade, chalk or discolor. Color is consistent and uniform throughout material. Three standard color choices are:

- 1 = Medium Green
- 2 = Light Green
- 4 = Dark Green

Other colors may be available via special order

Stake Options

Metal mounting stake options include:

- 1 = Galvanized Steel Stake
- 2 = Powder-Coated Galvanized Steel Stake

Length of stake varies by NLVP Pedestal model. Models 101 and 102 include 31" stake, Model 103 includes 40" stake, Model 104 includes 54" stake, and Model 107 includes 64" stake.

Bracketry Options

- A - Stake Only
- B - Stake with Two Mounting Flags
- C - Stake with Short "C" Bracket
- D - Stake with Long "C" Bracket
- E - Stake with Flat Bracket
- F - Stake with Fiber Terminal & Storage Brackets
- G - Stake with Universal Mounting Backboard
